

BUSINESS ECONOMICS MAJOR (BECON)

The Business Economics major is a quantitatively-oriented program of study in applied economics. Leading to a B.S. degree, this major combines in-depth study of economics with a general business background, the latter including courses in accounting, finance, management, management information systems, marketing, and quantitative business analysis. Students may choose upper-division economics courses in business and economic forecasting, economic theory, money and banking, international economics, managerial economics, public economics, and regional economics. Use of computers as analytical and problem-solving tools is emphasized in the program. The major also includes several non-business supporting areas of study from which students may choose courses.

For the B.S. degree in Business Economics, a minimum of 120 credits is required. A student enrolled in this major must earn at least a grade of C in each 300- and 400-level course in the major field, as well as in ACCTG 211, B A 243 (or B A 241 and B A 242), ECON 002 GS, ECON 004 GS, MIS 204, and SCM 200 GQ.

ECONOMICS MINOR

Students must take ECON 002 GS, 004 GS, and select additional courses (at least 6 credits at the 400 level) in ECON for a total of 18 credits. A grade of C or better is required for all courses in the minor.

CAREER OPPORTUNITIES

Career opportunities for Business Economics majors are similar to those for finance and management majors. Employment opportunities exist in business, finance, labor organizations, government, and academia. Economists are employed in every type of business, including manufacturing, utilities, insurance, retailing, finance, and banking. Government at all levels is another major employer of economists. Business and government economists collect and analyze data and provide forecasts and advice in a wide variety of functional areas. Academic careers emphasize teaching and research skills and usually require an advanced degree. An undergraduate degree in economics prepares students for advanced study in economics as well as in related areas such as business administration, law, and public administration.

The Academic and Career Planning Center (ACPC) assists students with the process of career and life planning through a full range of programs and services. You may schedule appointments with the ACPC staff to discuss issues including interests, skills, values, and goal setting, as well as how to find career information, internships, full-time jobs, and graduate schools. You are encouraged to utilize the services of the ACPC every year from your first semester to graduation.

Representative employers and positions of Behrend Economics and Business Economics graduates include:

Employer

U.S. Dept. of Commerce, BEA (Washington DC)
 U.S. Dept. of Labor, BLS (Washington, DC)
 U.S. Dept. of Treasury, IRS, (Washington DC)

- An asterisk (*) indicates an entrance to major requirement that must be completed within a student's first four semesters.
- **Bold type** indicates courses requiring a quality grade of C or better.
- *Italics* indicates courses that satisfy both major and General Education requirements.
- **Bold Italics** indicates courses requiring a quality grade of C or better and that satisfy both major and General Education requirements.
- GWS, GHA, GQ, GN, GA, GH, and GS are codes used to identify General Education requirements.
- US, IL, and US:IL are codes used to designate courses that satisfy University United States/International Cultures requirements. Students must complete 3 credits in US and 3 credits in IL. If a student takes a 3 credit course that is both US and IL, to complete the requirement, he/she must take another 3-credit course that is US, IL, or both US and IL. Education abroad courses and other credit-bearing experiences such as internships that meet this requirement, will be designated US, IL or both US and IL.
- "W" is the code used to designate courses that satisfy University Writing-Across-the-Curriculum requirements.
- At least 50% of all business credit hours required for the degree must be completed at Penn State Erie. Students may transfer a maximum of six (6) credits of 300- or 400-level business coursework from another academic institution.
- Students who have not met the admission requirement of two units of a high school foreign language must complete a college level-one foreign language within their first 60 credits. This is a pre-admission requirement – credits will not count toward degree requirements.

Scheduling patterns for courses not taught each semester:

NOTE FOR NON-BUSINESS AND BUSINESS MINORS:

It is relatively easy to earn a minor through proper selection of Additional and Supporting courses.

Other non-business courses may be approved by faculty advisors.

¹ Education Abroad coursework in business areas must be applied to Prescribed, Additional, or Supporting Course Requirements in business. Non-business courses taken abroad may be applied to Non-business Supporting Course Requirements.

² Students who place into French, German, or Spanish 002 or 003 on the basis of previous language study in high school may substitute credits of international studies coursework or other non-business supporting courses in consultation with an advisor.
